# THE FINAL RECKONING

## BOOK 3 OF THE DEPTFORD MICE | ROBIN JARVIS

With food short and no sign of spring, the mice know there's a desperate struggle ahead. Who knows how many will survive and at what cost?

ROBIN JARVIS is a British children's author who has entertained (and pleasantly terrified) generations of children with his brilliantly imagined dark fantasy stories, including the *Deptford Mice* and *Whitby Witches* series. # HOT DOG

DOUG SALATI

In this gorgeous, calming picture book, a sausage dog takes a trip to the beach to escape a sweltering summer in the city

It's summer in the city, and this hot dog has had enough! Enough of sizzling sidewalks, enough of wailing sirens, enough of people's feet right in his face. When he plops down in the middle of a crosswalk, his owner endeavors to get him the breath of fresh air he needs. She hails a taxi, hops a train, and ferries out to the beach.

Here, a pup can run!

With fluid art and lyrical text that have the soothing effect of waves on sand, *Hot Dog* shows us how to find calm and carry it back with us so we can appreciate the small joys in a day.

PUSHKIN CHILDREN'S JULY - DECEMBER 2024

So, how come there  
are immortal jellyfish?

Yep, that's right—there are immortal jellyfish! How cool is that! I was writing about the impossibility of human immortality. Meanwhile, this animal can theoretically live forever, until the end of time. A genuine superhero!

It won't surprise you that this medusa is one of my favourite jellyfish species (I'll tell you about my other favourites later). It is one of the most exciting animals on our planet because the immortality thing is something no one else has worked out. Some say that sea anemones can live forever, but the *Turritopsis dohrnii* (which is the scientific name of the immortal jellyfish) is clearly the brightest star in the "immortality heavens".

Since this jellyfish species was discovered, scientists have meticulously studied the animal to discover its secrets. This medusa is really tiny, just three to five millimetres in size. It was first discovered in the Mediterranean Sea but has now been found in practically every ocean and seems to thrive in all of them.

# KING WINTER'S BIRTHDAY

JONATHAN FREEDLAND AND EMILY SUTTON

An achingly beautiful picture book by Jonathan Freedland inspired by a story from Ulrich Alexander Boschwitz, author of *The Passenger*, and illustrated by Emily Sutton

It's King Winter's birthday, and he wants it to be really special. He wants all of his brothers and sisters to be there: King Summer, Queen Spring and Queen Autumn.

But the leaves and the trees whisper a warning, and as the four play magical games, something strange begins to happen outside.

**JONATHAN FREEDLAND** is a Guardian columnist and the presenter of BBC Radio 4's contemporary history series, *The Long View* and host of the podcast *Unholy*. He is the author of twelve books, the latest being *The Escape Artist*. He has written nine thrillers, mostly as Sam Bourne, including *The Righteous Men* a Sunday Times number one bestseller.

**EMILY SUTTON** is an artist and illustrator based in York, England. She has worked on numerous picture books, including *The Christmas Eve Tree* by Delia Huddy, as well as *Tiny, Lots, Many and Grow* by author Nicola Davies. Her illustrated edition of *Shakespeare's First Folio* is published in April 2024.

He had a faint memory - from before he was even a child - that they had all been together once. And now he wanted them to be together again.

The sun and the winds told him it was a bad idea. The leaves and the trees whispered it too. But King Winter insisted. It was his birthday and he wanted the greatest party ever.

Soon they were all together, the four of them at last in the same place, at the same time. They ate delicious food and played magical games. King Winter could barely contain his joy.
